📄 SUMMARY

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience building cross-platform applications using React Native, Expo, TypeScript, Node.js, and PostgreSQL. Experienced in software testing through Test-Driven Development (TDD), unit testing with Vitest, debugging, and validating application functionality. Comfortable working with REST APIs, Git/GitHub, and modern full-stack technologies. Seeking a QA/Software Testing internship where I can apply my development background while growing my skills in software quality and test automation.

📁 INTERNSHIP EXPERIENCE

Advanced Competitive Coding and SAP HANA, *SAP Edunet Foundation* 01//2026 – 04/2026
Anand, Gujarat

- Gained hands-on exposure to AI, Machine Learning, and Data Analytics concepts.
- Worked with Python and data analysis libraries through practical exercises.
- Participated in project-based learning and collaborative technical sessions.
- Developed a project by applying the concepts learned during the internship in a real-world use case.

Fullstack React Native developer, *Zephico Technologies Pvt. Limited* 04/2026 – 07/2026
Ahmedabad, Gujarat

- Developed a cross-platform fintech application using **React Native, Expo, and TypeScript**.
- Built authentication flows, protected routes, and role-based interfaces for different user types.
- Integrated REST APIs with a **Node.js and MongoDB** backend.
- Developed reusable UI components and maintained a clean, scalable project structure.
- Verified application behavior across different user flows and helped identify and resolve functional issues.
- Implemented secure data handling and state management for a seamless user experience using **Zustand**.
- Collaborated using **Git/GitHub** and participated in debugging, testing, and feature development.
- Worked closely with senior developers to understand application architecture, coding standards, and best development practices.

🎓 EDUCATION

B.Tech in Computer Engineering, 2022 – 2026
Madhuben & Bhanubhai Patel Institute of Technology (MBIT), CVM University Anand, Gujarat
CGPA: 7.42

🧠 TECHNICAL SKILLS

Programming

Python, HTML, CSS, JavaScript

Tools

VS Code, Git, GitHub, Android Studio, Claude CLI

Testing

Manual Testing, Unit Testing, TDD, Jest, Vitest

API & Database

REST APIs, Postman, SQL, Firebase

PROJECTS

Grocify – Cross-Platform Grocery Shopping Application

- Developed a cross-platform grocery shopping application using **React Native**, **Expo**, and **TypeScript**.
- Implemented authentication, session management, product browsing, cart functionality, and user flows
- Tested key application flows using **positive and negative test scenarios** to validate expected behavior.
- Managed application state efficiently using **Zustand** for a smooth user experience.
- Debugged functional and UI issues and verified fixes during development.
- Integrated **Drizzle ORM with Neon PostgreSQL** for application data storage and retrieval.
- Used **Git** and **GitHub** for version control and collaborative development.

Aurum – Gold & Silver Investment Platform

- Developed a full-stack cross-platform mobile application for digital gold and silver investment using **React Native**, **Expo**, and **TypeScript**.
- Built separate customer and merchant applications with **role-based authentication** using **Clerk**.
- Developed backend APIs using **Expo API Routes** and integrated **Neon PostgreSQL** with **Drizzle ORM** for secure and efficient data management.
- Created automated tests using **Vitest** to validate application logic and expected behavior.
- Used testing and debugging to identify issues and improve feature reliability during development.
- Integrated **Razorpay Payment Gateway** to enable secure digital transactions and payment processing.
- Followed **Test-Driven Development (TDD)** practices to build reliable, maintainable, and well-tested application features.
- Leveraged **Claude AI** to assist with code optimization, debugging, and improving development efficiency while maintaining code quality and understanding.
- Used **Git** and **GitHub** for version control and collaborative development.
